

**GRACE  
LAFORTUNE**

Trust the staff and faculty. From my personal experience, I can honestly say that I left The Recovery Village a new person with a new identity who I cherish to this day.

**ISAIAH  
RICHARDSON**

Being able to wake up every day without being sick, seeing my family and friends see my progress, not having to lie and hide my alcoholism, spending time with my son, and giving me a structural routine and learning how to love myself again.
